The American Cancer Society is launching a COVID-19 and Cancer ECHO to share up-to-date information with interdisciplinary cancer care teams about how the COVID-19 pandemic impacts cancer patients and other high-risk individuals. National experts from the National Comprehensive Cancer Network and the American Cancer Society will answer your questions in a secure, online environment at no cost. Participants are not required to attend all three sessions.

JOIN US FOR THE COVID-19 AND CANCER ECHO SERIES

Tuesday, April 28 from 12:00—1:00 pm ET
Topics will include:
- What health care providers and cancer patients need to know about the coronavirus
- What system/institutional changes/adaptations have been beneficial
- Should people still get screened for cancer during this pandemic?

Thursday, April 30 from 12:00—1:00 pm ET
Topics will include:
- How cancer patients can mitigate risk
- Potential modifications in treatment plans
- What is the reasonable timeframe to delay follow-up testing or treatment and how to guide patients?

Tuesday, May 5 from 12:00—1:00 pm ET
Topics will include:
- Steps to take to reengage patients as the pandemic subsides
