NCCN Licensing and Permissions

If you or your organization would like to license NCCN Content for any purpose or if you would like to review the Agreement required, please contact permissionrequest@nccn.org.

If you would like any further information concerning NCCN or NCCN Content, please visit our website at www.nccn.org.
NCCN Guidelines®

NCCN Firewall

• NCCN imposes strict policies to shield the guidelines development processes from external influences.

• The “firewall” surrounding the NCCN Guidelines processes includes:
  - financial support policies
  - panel participation and communication policies;
  - guidelines disclosure policies;
  - and policies regarding relationships to NCCN’s other business development activities.

• NCCN does not accept any form of industry or other external financial support for the guideline development program.

• Development of NCCN Guidelines is supported exclusively by NCCN Member Institution dues.

NCCN Licensing and Permissions

Permissions Process

• **Process to submit**
  
  • Please login to NCCN.org to access the Permissions Request Form.
  
  • Please upload draft materials directly to the Permissions Request Form.
    
    • No wait time to submit draft materials.
    
    • Please do not submit the Form without draft materials uploaded.

• After receiving draft materials, NCCN will review to determine if a license is required.

• Once a fully executed agreement is in place, NCCN will issue an invoice (if applicable).

• Permissions Team will send drafted materials to NCCN Guidelines Staff (not Panel Members) for review.

• Required edits will need to be made and resubmitted for final approval.

• Upon final approval of content, NCCN will send an email finalizing permission.
Per Project Licensing Agreement vs. Annual Licensing Agreement:

• Per Project Licensing Agreement: granted for a **single use case** for one year (for example, one website, one marketing piece, one banner ad, etc.).

• Annual Licensing Agreement: provides the rights to reference one or more Guidelines for one year for **an unlimited number of use cases**. An Annual license is financially advantageous if you will cite a specific Guideline in more than 7 or 8 use cases/projects per year.
Draft Submission Requirements

All drafts should be uploaded to the Permissions Request Form at NCCN.org/permissions

Draft Requirements*:
• All drafts must be submitted in a readable and searchable PDF format.
• On the first page, please list all pages in which NCCN Content/references are located.
• On all pages, please highlight and/or box the NCCN Content to be reviewed.
• Please superscript all NCCN Content throughout your materials.
• Please cite the Permission Request # assigned to your request on all communications.
• Submit only the slides or pages that contain NCCN Content.

Audio/Video Recorded Content:
• If content is scripted, submit the script to NCCN prior to recording.
• If content is un-scripted, it will be handled on a case-by-case basis.

*Please note: Failure to adhere to the following Draft Requirements will result in your permissions request being voided.
NCCN Licensing and Permissions

Using the NCCN Guidelines®

• The most current NCCN Content/Guideline version must be used.
  o *NCCN will not review material that references outdated content and will request an updated draft prior to initiating the review process.*

• Appropriate NCCN branding/trademarking standards must be followed.

• Appropriate credit language must be added.

• Content must be consistent with the original NCCN Guidelines and cannot appear to be favoring a specific product unless this is specified in the NCCN Guidelines.
NCCN Licensing and Permissions

Using the NCCN Logo

• The NCCN logo cannot be used in whole or in part in any commercial materials.

Use of Third-Party Content

• Any other use of third-party content (i.e., staging tables or citation from JNCCN) requires permission from the original source.
NCCN Licensing and Permissions

Using the NCCN Guidelines (continued)

• Algorithm or figure page(s) cannot be used in its entirety, unchanged within branded pieces – it must be adapted significantly if used promotionally.

• How to appropriately adapt an algorithm or table:
  o Remove NCCN logo, headers, footers, and clinical trial information.
  o Add appropriate reference statement specific to adapted algorithms.
  o Change font, spacing, style, coloring, etc. (content should be distinguishable from an algorithm page in the NCCN Guidelines).

Referencing Recommendations included within NCCN Guidelines

- **Generic Drug Names** – NCCN Guidelines always recommend the generic, and do not recommend a brand.
- **NCCN Recommendation is a treatment OPTION.**
- **Do not use the phrase “standard of care”** when referring to recommendations in the NCCN Guidelines.
- **The term “certain patients” may be used** if the full NCCN recommendation cannot be listed on a piece due to regulatory requirements or space limitations.
- **If including both the NCCN Category of Evidence and the NCCN Category of Preference,** the Category of Evidence should be first, followed by the Category of Preference.
- **Caution should be used when making “only” statements regarding NCCN Guidelines.**
- **Stay true to how the NCCN recommendation is written and avoid subjective commentary.**
  - For example, avoid “highest recommendation,” use “preferred” only when explicitly noted, and avoid oversimplification of recommendations.
NCCN and NCCN Guidelines must be referenced according to the NCCN written identity

Helpful Hints

• Reply to the most recent communication emailed from NCCN to maintain the chain of communication.

• Please include your Permission Request # in all communications.

• Please make all changes indicated by NCCN; these are required revisions, not suggestions.

• NCCN processes Requests on a first-in, first-out basis; we cannot accommodate “rushed” or “expedited” submissions.

• You may continue to submit your material(s) under the original email thread in which the materials were previously approved if you’re submitting minor updates to the content and you have a current Commercial Licensing agreement in place.
