NCCN Guidelines®

NCCN Firewall

• NCCN imposes strict policies to shield the guidelines development processes from external influences.

• The “firewall” surrounding the NCCN Guidelines processes includes:
  o financial support policies
  o panel participation and communication policies;
  o guidelines disclosure policies;
  o and policies regarding relationships to NCCN’s other business development activities.

• NCCN does not accept any form of industry or other external financial support for the guideline development program.

• Development of NCCN Guidelines is supported exclusively by NCCN Member Institution dues.
Permissions Process Overview

1. **Customer submits a Permissions Request Form and draft materials**
2. **BD staff determines if an agreement is needed**
3. **BD staff reviews materials for trademarking**
4. **BD staff sends materials to Clinical Information Team for review**
5. **BD staff sends required revisions of materials to customer**
6. **Customer returns revised materials; BD confirms revisions and sends approval email to customer**

NCCN Licensing and Permissions

Using the NCCN Logo

• The NCCN logo cannot be used in whole or in part in any commercial materials.

Use of Third-Party Content

• Any other use of third-party content (i.e., staging tables or citation from JNCCN) requires permission from the original source.
NCCN Licensing and Permissions

Using the NCCN Guidelines (continued)

• Algorithm or figure page(s) cannot be used in its entirety, unchanged within branded pieces – it must be adapted significantly if used promotionally.

• How to appropriately adapt an algorithm or table:
  o Remove NCCN logo, headers, footers, and clinical trial information.
  o Add appropriate reference statement specific to adapted algorithms.
  o Change font, spacing, style, coloring, etc. (content should be distinguishable from an algorithm page in the NCCN Guidelines).
Algorithms in Promotional Materials: Improper Use

- Tumor ≤0.5 cm
  - pN0
  - Consider adjuvant endocrine therapy^{aa,bb} (category 2B)
  - Adjuvant endocrine therapy^{aa,bb} or
    Adjuvant chemotherapy^{cc,dd} followed by endocrine therapy^{aa,bb} (category 1)

- Tumor >0.5 cm
  - Histology:^{z}
    - Ductal
    - Lobular
    - Mixed
    - Metaplastic
  - pT1, pT2, or pT3; and pN0
  - Tumor >0.5 cm
    - Strongly consider 21-gene RT-PCR assay
      (category 1)^{ii,li}
      - Recurrence score <26^{ii}
        - Adjuvant endocrine therapy^{aa,bb,li}
          or
        - Adjuvant chemotherapy^{cc,dd}
      - Recurrence score 26–30
        - Adjuvant endocrine therapy^{aa,bb,li}
          or
        - Adjuvant chemotherapy^{cc,dd}
      - Recurrence score ≥31
        - Adjuvant endocrine therapy^{aa,bb,li}

Algorithms in Promotional Materials: Proper Use
Referencing Recommendations included within NCCN Guidelines

• **Generic Drug Names** – NCCN Guidelines always recommend the generic, and do not recommend a brand.

• **NCCN Recommendation is a treatment OPTION.**

• **Do not use the phrase “standard of care”** when referring to recommendations in the NCCN Guidelines.

• **The term “certain patients” may be used** if the full NCCN recommendation cannot be listed on a piece due to regulatory requirements or space limitations.

• **If including both the NCCN Category of Evidence and the NCCN Category of Preference,** the Category of Evidence should be first, followed by the Category of Preference.

• **Caution should be used when making “only” statements regarding NCCN Guidelines.**

• **Stay true to how the NCCN recommendation is written and avoid subjective commentary.**
  o For example, avoid “highest recommendation,” use “preferred” only when explicitly noted, and avoid oversimplification of recommendations.

• Please include your Permission Request # in all communications.

• Please read and adhere to the draft requirements on the Permissions Request Form.

Permission to Cite or Use NCCN Content FAQs

Requesting Permission
1. How do I access the Permissions Request Form?
   Please log in to NCCN.org, or create an account if you do not already have one. After logging in, go to NCCN.org/permissions if you are not automatically directed back to this page. The Permissions Request Form will appear at the bottom of the page with your contact information pre-filled into the form.

2. Do I need to include my materials when submitting the Permission Request Form?
   Yes. Please do not submit a request for materials review without uploading your materials to the Permissions Request Form. If we receive a request without any materials attached, we will ask that you please submit a new Permissions Request Form, and the original request will be voided.

3. I cited a version of the NCCN Guidelines that was updated after our Permission Request was approved. Do I need to submit my materials again for NCCN Review?
   Yes. The approved materials should be updated with the current Guidelines version number and submitted again. If the content of the materials was impacted by the Guidelines update, it should be revised to reflect the current content of the Guidelines. All changes to the previously approved materials should be explicitly called out in the updated submission.

4. If the algorithm stays the same in a specific guideline, but the guideline version updates, do we need to update our materials to reference the latest version, even if no other changes occurred?
