Continuing Education Snapshot
January 2019 – December 2019
education.NCCN.org

48,029 learners
10,566 Physicians
17,290 Nurses
9,126 Pharmacists
11,047 Other HCPs

32,790 credits awarded

146 total CE activities
38 Live activities (in-person or webinar)
12 Journal activities
96 Recorded webcasts

Learners Report
- 99% increased their knowledge
- 99% improved their professional competence and/or performance
- 99% intend to change or affirmed their current practice
- 98% improved their ability to work as part of the health care team

Intent to Change Practice
- Apply latest NCCN Guidelines
- Better communicate treatment plans to patients
- Improve shared decision making with patients
- Educate colleagues on new information

Quality Education Built on High Standards

Thousands of interprofessional oncology care team members participate in National Comprehensive Cancer Network® (NCCN®) Continuing Education (CE) programs annually. These dynamic educational activities are designed by experts and world-renowned faculty to promote learning and practice change.

Learning activities meet high standards for objectivity and scientific rigor and focus on helping participants apply the latest evidence from the NCCN Clinical Practice Guidelines in Oncology (NCCN Guidelines®) in everyday practice. NCCN’s nationally accredited CE programs use an outcomes process to positively impact patient care.

Team-Based Learning Focused on Patients

NCCN’s CE activities cover more than 30 areas of cancer care through live webinars, online webcasts, and articles in JNCCN, educating learners about advances in oncology to promote high-quality care.

In support of improving patient care, NCCN is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

NCCN Member Institutions

The National Comprehensive Cancer Network® (NCCN®) is a not-for-profit alliance of 30 leading cancer centers devoted to patient care, research, and education. NCCN is dedicated to improving and facilitating quality, effective, efficient, and accessible cancer care so patients can live better lives. Through the leadership and expertise of clinical professionals at NCCN Member Institutions, NCCN develops resources that present valuable information to the numerous stakeholders in the health care delivery system. By defining and advancing high-quality cancer care, NCCN promotes the importance of continuous quality improvement and recognizes the significance of creating clinical practice guidelines appropriate for use by patients, clinicians, and other health care decision-makers around the world.
