

NCCN Chemotherapy Order Templates Appendix E

Appendix E: Regimen References

Each reference will be given a classification according to the following:

- a. NCCN references the regimen, and the template is consistent with the NCCN reference.
- b. NCCN does not reference the regimen, but an alternative reference is included which the template follows.
- c. NCCN references the regimen, but an alternative reference is included which more closely follows current practices and which the template follows.
- d. Whether or not NCCN references the regimen, the template does not exactly follow the stated reference because of changes in the standard of practice.
