Union Jurisdictions

Exhibit Labor Jurisdictions
Union exhibit labor claims jurisdiction for the installing, dismantling, and cleaning of prefabricated exhibits and displays when this work is done by persons other than fulltime company personnel. Labor may be employed by completion of labor forms enclosed in the exhibitor kit. They are not required to put your products on display, to open cartons containing your products, nor to perform testing, maintenance, or repairs on your products. If, however, you hire any laborer to assist you, it should be through the Official Contractor.

Freight Handling Jurisdiction
Vista Convention Services South has the responsibility of receiving and handling all exhibits material and empty crates for a fee as published on the enclosed Material Handling page. It is their responsibility to manage docks and schedule vehicles for the smooth and efficient move in and move out of the exhibition. Vista Convention Services South will not be responsible, however, for any materials, they do not handle. Vista Convention Services South will have complete control of the loading dock at all times. If you wish to unload or load you must report to the Vista Convention Services South Service Desk. Do not proceed to the docks until told to do so.

Vehicle must not be left to unattended at the loading areas. Any unattended vehicles will be towed away at owner’s expense.

The Fire Marshal absolutely prohibits the storage of empty containers in the exhibit hall. Arrangements are available with Vista Convention Services South to store empty crates. Please refer to the Material Handling and Shipping Information pages for more information.

Gratuities
Tipping is expressly prohibited. This includes such practices as giving money, merchandise, or other special consideration for services rendered. Do not give coffee breaks other than mid-morning and mid-afternoon, when the union has a paid break. Any attempt to solicit a gratuity by an employee for any service should be reported immediately to the Exhibit Manager and Vista Convention Services South.

In General
Craftsmen at all levels must be instructed to refrain from expressing any grievances or directly challenging the practices of any exhibitor. All questions originated by labor are to be expressed only to Vista Convention Services South and/or the Exhibit Manager. Exhibitors are asked to refrain from voicing labor complaints directly to craft personnel. Any questions regarding contract labor should be directed to the Exhibit Manager or Vista Convention Services South.

Shipping Information

What you should know:

* As an exhibitor, you are responsible for providing your carrier with proper delivery and pickup information for your materials, both in advance and at showsite.

* Please prepay all shipping charges. Vista Convention Services South cannot accept or be responsible for collect shipments. All shipments must be accompanied by a Bill-of-Lading. Shipments received without receipts, freight bills or specified unit counts (UPS, Federal Express, personal vehicles, etc.) will be delivered to the exhibitor’s booth without guarantee of piece count or condition. No liability will be assumed by Vista Convention Services South for such shipments. Shipments without certified weight documents will be estimated by Vista Convention Services South. This estimate will be binding on both parties and no adjustments will be made after the show closes.

* Do not ship uncrated materials to the warehouse! Loose, uncrated or unskidded materials will be accepted at showsite only. Uncrated shipments received at showsite are charged at higher handling rates than crated, skidded or otherwise self-contained shipments.

* Separate mixed van shipments between crated and uncrated. Clearly identify the weights of each on the Bill-of-Lading. Otherwise, Vista Convention Services South will invoice the entire load at the uncrated rate and will be unable to adjust the charges later.

* Select your carrier carefully. Shipments received on vehicles that cannot be unloaded at the dock are considered “special handling” and are charged at higher rates.

* All shipments for the show received either in advance or at showsite will be charged material handling by Vista Convention Services South. Refer to the Material Handling Service and Rates Form.

* All material handling rates are roundtrip and are based on incoming weights only. Overtime charges may apply under some circumstances. Please refer to the Material Handling Service and Rates Form.

* If granted permission for early move-in (off-target move-in) by show management and Vista Convention Services South, the exhibitor is required to use Vista Convention Services South labor for booth installation.

Material Handling includes:

* Storing your booth in our warehouse for up to 30 days in advance of the show. (Advance shipments only)
* Delivering materials to your booth at showsite.
* Removing empty containers from your booth, storing them for the duration of the show, then returning them to your booth at close of the show.
* Moving packed and labeled materials from your booth to the dock area at close of show and reloading them on designated vehicles based on information provided on your showsite Bill-of-Lading.

Material Handling does not include:

* Labor and/or equipment for uncrating, unskidding, assembling, position, leveling, dismantling, recrating and reskidding machinery and/or equipment for exhibitors. Additional labor to accomplish these tasks may be ordered from the various labor order forms enclosed. Scheduling any carrier for pick up or delivery of your materials, if other than the official show carrier(s).

As a result of re-routing or handling no liability will be assumed by Vista South.
Important Freight Information

Definition of Special Handling:
“Shipments that are loaded in such a manner as to require additional labor to unload, sort and deliver.”

Vista Convention Services South uses the following definitions in assessing Special Handling surcharges for material handling:

- **Ground Load/Unload** - Vehicles that are not dock height preventing the use of loading docks, such as U-Hauls, flat bed trailers, double drops, etc. Situations where dock utilization is not possible will result in a Special Handling assessment.

- **Side Door Load/Unload** - Shipments that cannot be accessed from the rear of the trailer.

- **Constricted Space Load/Unload** - Trailers loaded "high and tight", shipments that are loaded in such a manner as to not be readily available (freight down one side of a trailer that must be bypassed to reach targeted freight).

- **Designated Piece Load** - Driver with tape measure who requires loading crew to bring multiple pieces of freight to rear of trailer to select next piece; having to unload and reload to fit, etc.

- **Stacked Shipments** - Shipments loaded in such a manner as to require items to be removed to ground level for delivery to booth. Loose items stacked on top of crates and/or pallets constitute special handling.

- **Mixed Shipments** - Multiple shipments delivered together without shipment integrity; pieces for separate shipments that are loaded mixed throughout the delivery vehicle, such as UPS, FedEx, DHL, USPS.

- **Improper delivery receipts** - Shipments that arrive without individual bills of lading, such as UPS, FedEx, DHL and USPS.

PSAV is proud to serve as the exclusive Rigging provider for the Westin Diplomat Resort and Spa. We are the premier and largest entertainment rigging company in the world, and look forward to providing our clients with the highest level of rigging expertise and service. Please take full advantage of our extensive support resources including an intimate knowledge of the facility, CAD design and drafting services, a full inventory of scissors lifts, boom lifts and crank towers as well as specialty rigging hardware for aerial acts, signage and more. Our ½ ton capacity CM Prostar hoists allow you to achieve maximum trim, and at only 49 pounds, will minimally impact your load limits versus a standard full size hoist. PSAV is your full service rigging support and solutions provider!

Pre-Show Standards

• To ensure a smooth event, we request that you schedule rigging services along with a scaled plot (.DWG, or .VWX) at least 21 days prior to load-in. Please use our quick and easy online form to schedule your event: [http://riggingadvance.psav.com/](http://riggingadvance.psav.com/). If this form and plots are not received at least 14 days prior to load in, double time labor rates will apply. For questions, rates, or CAD drawings, please contact the Rigging Manager, Steve Ferrara sferrara@psav.com, 954-602-8963 or our Director of Sales, Kevin Keogh kkeogh@psav.com, 954-602-8970.

• Please ensure the rigging plot contains the reflective ceiling plan and includes all flown equipment and per point load calculations. Plot acceptance is dependent upon a comprehensive safety review, based on OSHA/ANSI compliance, Industry Standard, and manufacturer guidelines. A great time saving option is to have PSAV draft the CAD drawing and run load calculations for you, which we are happy to do for a standard fee.

On-Site Practices

• PSAV must make all attachments to the ceiling, and is the exclusive provider of rigging labor, aerial lifts, and motorized chain hoists. Also, please make use of our onsite inventory of truss.

• Changes to the previously approved CAD Plot will require PSAV approval and result in additional charges.
Rigging Equipment Guidelines

- All connections to the ceiling or supporting structure of the Hotel must be made by PSAV riggers.
- Flown equipment may only be moved by PSAV riggers.
- PSAV will not dead hang items over 100 pounds or over 10’ in length with a scissor lift. PSAV provided crank-towers or chain hoists must be used.
- All rigging hardware, truss, or other structures must meet OSHA/ANSI specifications for overhead use. Nuts and bolts must be rated. Wire rope clips, eyebolts, and other hardware must be forged, and/or rated for overhead use. Structural engineering documents are required for custom built truss and other structures.
- A steel safety is required on each item hanging from the truss as well as a backup for synthetic slings.
- There is no rigging allowed from the air-wall tracks anywhere in the building.
- All flown signage or equipment in a public area or meeting space must trim at least 8’ off the floor.
- Additional weight cannot be applied on flown equipment after riggers leave the room.

- Any rigging modifications performed without the supervision of PSAV riggers will be subject to fines (a 2 rigger minimum call) and possible shut down until such changes are inspected and approved by PSAV, all at the expense of the group or production company responsible.
- A scissors lift is required for all rigging calls at the hotel. PSAV has lifts on site and available for rent. The on-site scissor lifts are the only lifts that can be used at The Westin Diplomat.
- Since scissors lifts are not designed or permitted by OSHA or the manufacturer to pick up large looms of cable, any cable picks with more than 4 multi-cables must have a motorized cable bridge. Please note that this applies to Great Hall only, no cables may be picked point to point on the ballroom level.
- In accordance with OSHA standards, any scissor lift operator other than PSAV riggers must present documentation verifying that they have been trained in the safe use of aerial work platforms (scissors lifts).
- Under no circumstances may a person be suspended by, walk or climb upon any point or supporting structure attached to the ceiling.

**C.M. Prostar Hoist**

- 2005 Model 2127S (3 ph.)
- 30’ lift @ 8’ per min
- Total weight 49lbs. (including chain)
- 1000lbs. lifting capacity.
- Fits inside 12” box truss
- Motion Labs 7 Pin control system
- Custom case protects hotel carpet from chain lube.
Rigging labor:

- All rigging crews will consist of a minimum of 2 riggers, however the number of riggers and equipment required for your event will be determined by PSAV.
- Five (5) hour minimums will apply on all calls. Time beyond five (5) hours will be billed in hourly increments.
- A 30 minute meal break is required every five (5) hours. A meal penalty will apply for each hour worked beyond five (5) hours without a break, equal to one straight time hour per rigger until a break is provided.
- Riggers will remain onsite until truss is at trim and motor power has been disconnected.
- Please note that any call changes or cancelations must be made with a minimum of 24 hour notice. Cancellations made with less than 24 hour notice will be billed at the minimum rigging call times for the number of scheduled riggers.
- All changes in labor calls must be made with the PSAV hotel Director of Event Technology. Onsite rigging staff cannot change call times.
Diplomat Great Hall Level Standards

- Attachments in the Great Hall are made to a 3" pipe grid or to the structural steel above. 1000 pounds may be applied to each pipe grid intersection which are on 8’ centers. Also a maximum 500 pound load can be applied anywhere along the spans between intersections. In addition to the pipe grid, 1000 pounds can be hung per panel point to the structural steel. Please see CAD drawing for pipe grid and steel locations.

- Bridling is not permitted in the Great Hall. All rigging attachments must be dead-hung off of the pipe grid or the structural steel above the pipe grid.

- The use of chain hoists is allowed on the Great Hall level; PSAV is the exclusive provider of chain hoists for the Westin Diplomat Resort and Spa.

Diplomat Ballroom Level Standards

- All ballrooms have finished ceilings and the only rigging permitted is to the skyhooks. The skyhooks are rated for 750 pounds, dead load only, meaning the use of motorized and manual chain hoists is not permitted. The truss is set on crank-towers, loaded with lights, audio, video, cranked to trim and then dead-off. No dynamic load may be applied to the skyhooks.

- CHAIN HOISTS CANNOT BE USED ON THE POINTS.

- Please refer to the CAD files for exact locations of the rigging points.

- There is no access above the finished ceiling. The supporting structure of this level is concrete.

- Cable picks are not permitted due to the distance between points. The truss should be run to the wall and cables dropped at the wall or desired location from the truss.

Aerial Acts

- Aerial acts, in which performers are flown, require special procedures and approvals. These acts are possible to rig in the Great Hall. If you wish to put on an aerial act on the ballroom level, it must be ground supported. Please contact our Rigging Manager, Steve Ferrara sferrara@psav.com, 954-602-8963, for more information.
