

Conference Features

The NCCN 21st Annual Conference: Advancing the Standard of Cancer Care™ attracts more than 1,500 registrants from across the United States and the globe including oncologists (in both community and academic settings), oncology fellows, nurses, pharmacists, and other health care professionals involved in the care of patients with cancer. The conference features three days of education sessions where respected opinion leaders from NCCN member institutions present the latest cancer therapies and provide updates on selected NCCN Clinical Practice Guidelines in Oncology (NCCN Guidelines®), the data upon which the NCCN Guidelines are based, and quality initiatives in oncology. Topics change annually but focus on the major cancers and supportive care areas. The NCCN Annual Conference also includes track sessions and case study discussion forums with experts from NCCN Member Institutions and roundtable discussions featuring the foremost professionals from the academic, patient advocacy, government, payer, industry, and business realms of cancer care.
