

# SAVE THE DATE

## NCCN Policy Summit:

*Developments in Biosimilars and Molecular Testing*

Friday, September 16, 2016 > The National Press Club > Washington, DC

This summit will provide health care providers, government and regulatory organizations, patients and patient advocacy groups, pharmaceuticals, biotech and diagnostic companies, payers, pharmacy benefit managers, and other relevant stakeholders with a forum to discuss issues and opportunities related to biosimilars and molecular testing. **Register now for Friday, September 16, 2016!**

**Agenda topics include\*:**

- The current status of molecular testing and biosimilars within the oncology space
- Access to and payment for biosimilars
- The role of personalized medicine in oncology
- Molecular testing: what tests are available, when and who to test, and how to interpret results
